College of Forest Resources

Denman Forestry Issues Series presents:

Fall 2003

Federal Land Management Policy Issues

October 13, 2003

Lockwood Forest Club Room

College of Forest Resources

University of Washington

The Denman Forestry Issues Series provides information and discussion on timely forestry and natural resources issues to inform and educate students, faculty, staff and the public. This program is the 7th in a series begun in 2000 with support from the Denman Endowment for Student Excellence in Forest Resources, and will air on UWTV in December 2003. The College extends special thanks to Mary Ellen and W. Richard Denman and to the participating speakers for making this program possible.

Denman Forestry Issues -- program airdates on UWTV:

Federal Land Management Policy, Part 1:

Tuesday Dec 9 9am

Wednesday Dec 10 6pm

Saturday Dec 13 8pm

Sunday Dec 14 3pm

Federal Land Management Policy, Part 2:

Tuesday Dec 16 9am

Wed Dec 17 6pm

Thursday Dec 18 1:30pm

Saturday Dec 20 at 8pm

Sunday Dec 21 3pm

For future airdates and to access the STREAMING VIDEO, see this page of the UWTV website

<http://www.uwtv.org/programs/displayseries.asp?collid=233>

All the Denman forestry programs essentially air on the same days/times as listed above for these two new premieres. . .all air together in rotation week after week, month after month.

[College of Forest Resources Continuing Education](#)

Program Agenda

Segment 1: Federal Land Management Policy – the USDA perspective

9:15 - 9:20 a.m. *Introduction* – **Dean Bruce Bare**

9:20 - 9:50 a.m. *"Addressing the Great Issues and the Great Diversions in Natural Resources Management Today"*

Mark Rey, Under Secretary of Natural Resources and Environment, U. S. Department of Agriculture

Faculty Response

9:50 - 10:02 a.m. *"Roles and Stewardship Challenges of Federal Forest Lands in the 21st Century"*
Jerry Franklin

10:02 - 10:14 a.m. *"Policy without Illusions"* **Robert Lee**

Segment 2: College of Forest Resources Research Related to Federal Land Management Policy

10:25 - 10:30 a.m. *Introduction* – **Dean Bruce Bare**

CFR Research

10:30 - 10:42 a.m. *"Addressing the "Fire Problem" in the West: the Role of Science-based Fuel Treatment"* **David Peterson**

10:42 - 10:54 a.m. *"The ABCs of Maintaining Viable Populations of Wildlife on Federal Forest Lands"*
John Marzluff

10:54 - 11:06 a.m. *"Sustainable Management Tools for Technology Transfer"* **Bruce Lippke**

Response

11:06 - 11:25 a.m. **Mark Rey, Under Secretary of Natural Resources and Environment, U. S. Department of Agriculture**

Question and Answer Session

11:30 a.m. - 12:00 p.m. – Speaker Panel

Speaker Profiles

Bruce Bare, Dean and Professor of Forest Management and Quantitative Science. He is a strong advocate of sustainable resource management.

Mark Rey, Under Secretary of Natural Resources and Environment, U. S. Department of Agriculture (USDA), appointed 2001. He oversees the USDA's Forest Service and Natural Resources Conservation Service. In the past he has served as a staff member with the U.S. Senate Committee on Energy and Natural Resources, Vice President, Forest Resources, for The American Forest and Paper Association and Executive Director for The American Forest Resource Alliance.

Jerry Franklin, Professor of Forest Ecology. His research interests involve the ecology of old-growth forests. He was instrumental in the development of the Northwest Forest Plan in the 1990s.

Robert Lee, Professor of Sociology of Natural Resources. His research interests are human communities and development and change of forestry institutions. He is particularly interested in the effects of federal forest land management policies on rural communities.

David Peterson, Professor of Ecology and Research Forester with the Pacific Northwest Experiment Station of the USDA Forest Service. His research interests involve the effects of environmental stress on forest ecosystems including flooding, fire, air pollution and most recently, climatic change.

John Marzluff, Professor of Wildlife Science. His research interests are wildlife habitats and the effects of forest fragmentation on birds as well as avian social ecology and demography. He has conducted extensive research on birds in old-growth forests, including the marbled murrelet. Wildlife-habitat relationships; Avian social ecology and demography

Bruce Lippke, Professor of Forest Economics. His research interests are forest economics, global trade and environmental policy linkages, resources assessment, environmental/economic performance of renewable industrial materials and rural technology transfer. He has been instrumental in developing the Rural Technology Initiative (RTI) and serves as President, Consortium for Research on Renewable Industrial Materials.

Planning Committee

The following University of Washington College of Forest Resources faculty and staff contributed to the planning and execution of this event:

Bruce Bare, Dean

John Calhoun, Director, Olympic Natural Resources Center

Robert Edmonds, Professor and Associate Dean

Jerry Franklin, Professor, Ecosystem Analysis

Robert Lee, Professor, Natural Resources Sociology

Bruce Lippke, Professor and Rural Technology Initiative Director Ellen Matheny, Education and

Outreach Director, Olympic Natural Resources Center Cara Mathison, Assistant Development

Director Tom Mentele, Development Director Adam Nance, Assistant Development Director John

Marzluff, Professor, Wildlife Science Cecilia Paul, Communications Director David Peterson,

Professor, Ecosystem Analysis

The University of Washington reaffirms its policy of equal opportunity in education regardless of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam era veteran in accordance with University policy and applicable federal and state statutes and regulations.
